ELOPER BLAMES SISTER-IN-LAW

Baltimore, June 4.—Athishearing-yesterday before Commissioner Supplee on the charge of taking his sister-in-law, Mrs. Helen Markowski, to Detroit, in violation of the white slave law, Benjamin Markowski put all the blame on the woman. He said his sister-in-law persuaded him to elope with her, and she had charge of all their affairs while they were away, as she could speak and write English and he could speak only Polish. He denied that he deserted her in Detroit and returned to Baltimore, but said she left him. He was held in $200 bail for court. His sister-in-law has returned to her husband and children. The commissioner told her that the evidence showed that she was as guilty as her brother-in-law.

COALITION AGAINST SUFFRAGE HINTED

Though they concede passage of the woman suffrage resolution by the Senate, anti-suffragists today hinted that a coalition of Southern and New England states might prevent its ratification.

The amendment, to be called up in the Senate today must be ratified by thirty-six States before it is part of the Constitution. Thirteen States by rejecting the amendment, or by holding off from ratification, could indefinitely delay nation wide suffrage by Federal amendment "antis" declared.

Sentiment is so strong in most of the Southern States against suffrage at least by Federal enactment, that it will be a long time before some Southern Legislatures ratify the decision of Congress, Southern Senators predict.

MAY BUY BRIDGES

Hagerstown, Md., June 4.—Joint committees of the legislatures of Maryland and West Virginia met here today to consider the purchase by the two states of the toll bridges across the Potomac river at Harpers Ferry, Shepherdstown, Williamsport and Hancock to open up new lines of travel over present and prospective model State highways as approaches to the bridges.

There is strong sentiment in both States, and especially in the territory contiguous to the bridges, in favor of the bridges being taken over, and it is believed that the joint committees will recommend such action to their respective legislatures. It is pointed out that the benefits to be derived by both states by making the bridges free and also from the addition of model highways from them from north to south would be of incalculable value.

MAY SELL 2.75 BEER

New York, June 4.—That beer containing 2.75 per cent. by weight of alcohol will be sold until next fall, at least, now appears almost a certainty, Emory R. Buckner, of counsel for the brewers, said Monday.

In discussing the Government's appeal, led yesterday in the Federal District Court, from the temporary injunction granted the Jacob Hoffmann Brewing Company by Judge Mayer a week ago, Mr. Buckner said that even if the Circuit Court of Appeals should sustain the objections male by the Government, the brewers probably would carry the case to the Supreme Court of the United States.

Meantime, Mr. Buckner asserted the brewers probably would be able to obtain a stay, restraining the Federal officials from enforcing the War-time Prohibition law.

There is little possibility, Mr. Buckner said, that the Supreme Court can try the action before September. Under a stay the sale of the war beer could go on.

THE LOCUST PLAGUE

The appearance of locusts in and near Alexandria is causing apprehension, and the fact that cats eat these pests for a time gave hope to all interested. But it is now known that a meal on these insects rings sore results to the felines. Such food makes them sick.

What is generally called locusts hereabouts are large insects, as large as humle bees, with dark blue wings and white bodies. Cats have ever shown a decided taste for these creatures, but the locust which appears at intervals of sixteen or seventeen years is of another genus. The stomach of Grimalkn cannot digest them without distress and pain.

The birds, however, seem to be faring better. They are having the time of their lives these days with results that are most gratifying to the gardener. Strawberry growers are especially happy because the birds have been attracted away from their beds. Cherry trees, too, have been spared the usual raids by robins while the big feasts of locusts is on. The feathered tribes are not only saving the small fruits by taking exclusively to the insect diet, but in every female locust they scotch they are removing the possible destroyer of more fruit. These lady locusts cut off thus early in life, are prevented from indulging in their twig splitting proclivities which are the dread of orchardists.

With the cats out of the ranks, the birds have themselves the whole task of keeping down the locust damage. Horticulturists have found sprays and powders ineffective. The female locust does not eat the twigs hence the poisons do not get into her system. She has a very business like saw which she uses with more skill to make a place for her eggs, utterly indifferent to the deadliest of potions.

The much-abused English sparrow is playing his part in the war on locusts.

THE CASE OF AUSTRIA

In 1914 Austria covered 261,259 square miles. The peace treaty reduces her to something like 50,000 square miles. An area the size of France is taken from her; an area the size of Rumania is left.

In bygone years it was supposed that Austria had to be kept strong in order to keep the Balkan situation in equilibrium. As the Baltimore News says, "the gravest concern of Europe regarding the Austrian Empire was over what might become of the loose personal union between Austria and Hungary upon the death of Franz-Joseph. Nor were the political speculators few who felt that his demise would be the signal for a world war. To this extent the integrity of Austria was the keystone of the European system to all the Nineteenth Century.

"A world war came before he died. With its ending has come a complete reversal of the guiding principle of Europe's past policy. A certain feeling which, for lack of a better term, must be called sentimentalism, replaces the cold practical judgment of the past as to the political unreliability of the Balkan peoples. Hitherto they were frankly recognized as politically inferior, with little capacity for self-government and less for refraining from intrigue against each other. Now a territory the size of France is to be divided between them and the mere augmentation to the population of each is greater than the whole population left for the modern State to which pre-war Europe looked to preserve Austria's intergrity and represent her in Western Europe's councils.

What is now to be tried is an enormous political experiment, the greatest made, perhaps, since the partitioning of Charlemagne's Empire. There is hardly a face in history on which to base belief in its success. In the main, no other settlement could be had ;the experiment was forced upon us. But it it well worth remembering that it is an experiment of vast consequences one way or the other; and it is while those consequences are still utterly unknown that America is asked to take her plunge into European politics."

SENATOR MARTIN

All will hope that the indisposition of Senator Martin may soon pass, and that, entirely restored, he may, after a brief rest, be back in town. He is the leader of his party in the Senate, an denjoys the thorough respect of both sides of the chamber. His followers expect clear headed counsel from him, and take it when offered. His opponents expect fair, if firm, resistance, and are never disappointed. He is an influence in the chamber for orderly procedure, and an intelligent transaction of business.

It is appropriate, and but the simple truth, to say that at this time in particular the country needs in action in office men of the Martin type and equipment—unexcitable, unstampedable men—men of large legislative experience—men familiar as participants with the record right up to date—men who by their course in public affairs have earned and received general public confidence.

The new Senate, as we all know, is almost evenly divided between the two parties. For this reason both parties require the best leadership there. America is facing great issues; and the Senate must help in their settlement. It will consider propositions of its own. It must consider, and, if necessary, revise, measures passed by the House. In some matters—in those of appointments to the higher offices, and in treates—it is the constitutional adviser of the President.

We need, then, at this grave time the Senate in its best form—every member in his place, and strong for his work. On questions of party we need stout partisans. On questions above party we need men capable of taking, and acting on, non-partisan views.

If the citizens of this town have some personal, if you please, some selfish, interest in the good health and activity of the senior senator from Virginia it arises from the fact that he has always shown a lively and most friendly concern for the advancement and well being of the District. A near neighbor, and in sympathy with our aspirations, he has helped us on many occasions. He has studied our affairs, and is thoroughly familiar with them; and just now, with an old controversy reopened, we need all our friends.

Under medical advice, Mr. Martin has entered upon a vacation, freeing himself from official work and worries. Approaching his seventy-second milestone, he should have years of service before him; and the general wish will be to see him in harness soon again.—Washington Star

AIDED IN VIRGINIA RESCUE

Capt. Robertson Saved 43 From Bay Boat—Another Victim Found

Kilmarnock, Va., June 4.—It has just been ascertained that Capt. Harley E. Robertson, who resides in the lower part of Lancaster country, rendered efficient and heroic service in rescuing passengers from the burning steamer Virginia, of the Old Bay Line. Captain Robertson, who is an expert seaman, was a passenger on board the steamer City of Norfolk, which was bound out of Baltimore some distance behind the ill-fated Virginia. Captain Robertson was asked by the commander of the city of Norfolk to take charge of one of the rescue boats. He saved more than 40 of the 156 passengers on the Virginia. Captain Robertson is a very modest man, but his neighbors, who are proud of him, are going to apply for a Carnegie medal for him in recognition of his gallant service.

Two colored women, while fishing in the Great Wicomico River, near Mila, found the body of a small boy floating in the water, which proved to be that of Benny Smith who, with his father and aunt, was drowned from the steamer Virginia May 23. On being notified the officials of the Old Dominion Steamship Company telegraphed directions to have the body prepared for burial and shipped home.

BLAMES FORMER AUSTRIAN

Peace Envoy Head Whitewashes the People.

St. Germain, June 4.—Upon receiving the treaty from the Allies here today, Dr. Karl Renner, chairman of of the Austrian delegation, outlined briefly the history of the establishment of the German Austrian republic, and declared it had no relation with the former Hapsburg Empire. He spoke as follows:

"For a long time the people of German Austria were waiting in distress for this present day to come which shall relieve the tension caused by the uncertainty as to that people's future state. We were longing for the hour of decision, because it was to render peace at last to our hard-tried country.

The new republic has freed herself from all imperialistic aspirations which have become so fatal to the existence of the ancient monarchy She has rid herself once for ever of all the reactionary traditions which had turned the former monarchy into a prison for its people. She is, alas, the unfortunate victim of that horrible crime of 1914—a crime ment, however, and not by the people.

ALLIES WILL CHANGE PACT

Germans Must Go on Record In Favor of Principles Now Part of Treaty.

Paris, June 4.—Before the allies reply to the counter proposals, the Germans may be asked indirectly to go on record as to whether they limited to sign the treaty, it was learned authoritatively yesterday.

If the Germans express a willingness to accept the principles established in the present document, then modifications will be made, it was said. But if they say they will not accept the basic principles, the allies will consider modifications useless.

President Ebert, through the press, predicted yesterday that the national assembly will reject the peace terms unless they are modified, says a Berlin dispatch. The Ebert government has ordered suppression of a military circular asking the German people if they are ready for armed resistance against the peace conditions.

President Wilson conferred today with American commissioners and experts regarding proposed modification of the economic section of the German treaty. The suggested changes were outlined authoritatively as follows:

First—Fixing of a definite sum which Germany must pay in reparation, to be $25,000,000,000 to $30,000,000,000.

Second—Clarifying of the clause regarding powers of the reperations commission as to issuing decrees governing German internal affairs.

Three—Allowing four years instead of two for payment of the first $5,000,000,000 of reparations.

Four—Making provisions enabling Germany to acquire merchant shipping by lease, charter or otherwise.

American economic experts advocate that Germany be given mandatories over her former East Africa colonies to assist her to meet her financial obligations.

FOR LIGHT WINES

Flag Day Demonstration in Washington Will Find 100,000 Workers in Line

Organized labor, in its various branches affiliated with the American Federation of Labor has completed plans for a demonstration of gigantic proportions before Congress, on Flag Day, June 14. The purpose will be to give members of Congress a visual representation of labor's protest in demanding immediate passage of legislation repealing the war prohibition bill, which becomes effective July 1, as it relates to beer and light wines.

Plans for a parade of 100,000 men and women workers, marching, not as individuals, but as representatives of thousands of others, have been formulated. The assembly of the army of wage earners will be at the Union Station Plaza. They will march in a body to the front steps of the Capitol.

When the Capitol is reached, there will be a salute to the flag as a mark of the anti-Bolshevist and pro-patriotic sentiment of the workers. Labor Congressmen will address the throng from the steps of the Capitol.

The stand taken by President Wilson on the repeal of war emergency prohibition legislation, inasmuch as it affects light wines and beer, is backed to a man by millions of workers throughout the country, it was declared at the headquarters of the American Federation of Labor.

Labor leaders yesterday started a final campaign to save beer and light wines.

Forecasts of "unrest and dissatisfaction, the nature and results of which cannot now be predicted," were given the House Judiciary Committee, which had under consideration the Volstead bill for enforcement of war-time prohibition.

A "feeling of serious resentment against the proposed restrictions is springing up." the committee was told by four representatives of the American Federation of labor.

PALMER'S STATEMENT

Says Attempt to Terrorize Has Failed—Prompt Action Assured

Attorney General A. Mitchell Palmer yesterday issued the following statement:

"The outrages of last night indicate nothing but the lawness attempt of an anarchistic element in the population to terrorize the country and thus stay the hand of the government This they have utterly failed to do.

"The purposes of the Department of Justice are the same today as yesterday. These attacks by bomb throwers will only increase and extend the activities of our crime detecting forces.

"We are determined now, as heretofore, that organized crime directed against organized government in this country shall be stopped."

ELEVEN HURT IN RIOT

Women Among 5,000 Strikers in Fight With Men Taking Places

Toledo, Ohio, June 4.—Eleven persons were seriously injured, two probably fatally in a riot at the plant of the Willys-Overland Automobile Company last night. The riot was a result of the labor disturbance involving 13,000 workers. The plant opened up a week ago after two weeks' idleness. Discharged soldiers, acting as guards at the plant, fired more than 100 shots over the heads of rioters, finally dispersing them.

Violence started early in the day when a crowd of idle workers stormed cars carrying loyal employes to the plant, smashed the car windows with stones and bricks and pulled workers into the streets, where they were beaten. The situation flamed into a pitched battle last night, when idle workers numbering 5,000, including many women stormed the entrances of the plant as the employes were leaving, beat them with clubs, and felled them with a shower of stones and bricks. Streets in front of the plant were littered with missles nad broken glass.

Mayor Cornell Cehriber, under whose direction the former soldiers still wearing their military uniforms, are guarding the plant, issued a statement in which he declared no more violence would be tolerated, and that "every one who starts trouble will be dealt with forcibly, and in the manner which the occasion demands."

The former soldiers were armed with rifles supplied at the direction of the Mayor. There are 500 of them acting as emergency police.

FOUND AT CARDINAL'S DOOR.

Baltimore, June 4.—A man giving the name of Charles Hobson and his address as St. Louis, was arested in the vestibule of Cardinal Gibbons' home here Monday night by a squad of police sent to guard the place after information had been received that a Catholic Church in Philadelphia had been damaged by a bomb.

The man could not explain his presence in the residence. He said he had been an orderly in Johns Hopkins Hospital here.

He is held on a charge of vagrancy.

Strong, Forceful Men With Plenty of Iron In Their Blood—

These Are The Ones With The Power and Energy To Win

The Strong Vigorous Man Is Supreme

"Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritible. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron." It often increasea the strength and endurance of weak, nervous, run-down people in two weeks' time. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

MILITANT SUFFS

Senator Reed Says They Glory In Law-Breaking—Believed Measure Will Pass.

Washington, June 4.—"Militant suffragists have worked themselves into the same frame of mind as the man who put the bomb on Attorney-General Palmer's porch," Senator Reed, Missouri, declared yesterday in opening Senate debate on the suffrage resolution.

"They glory in law-breaking and jail sentences. They have no regard for the Constitution. They are not the sort of people to maintain a stable government."

Reed, the first of several antis to speak, declared Congress seems determined "on this and other questions to do the thing whether it's wise or unwise."

Though Senate galleries were well filled with suffragists, the Senate itself displayed little interest in the debate. The belief was general that the rollcall would bear out suffrage leaders' claims of more than enough votes to assure the submission of amendment to the States.

Senator Harrison, Mississippi, one of thoe whom suffragists have classed as "doubtful" introduced an amendment providing that white women only should get the vote which was rejected 58 to 17.

LAUDS HIS LIQUOR SQUAD

Comissioner of Prohiition Addresses Temperance Workers in Richmond

Richmond, Va., June 4. Eulogy of Inspector W. C. Hall and the "brave men" associated with him, abuse of the "subservient press," which he accused of bending its efforts toward weakening the morale of his department, defense of the States policy of maintaining a supplementary force to see that prohibition laws are enforced and the promise that the "dry" forces will meet for a fight with the hostile workers before the next General Assembly, were high lights in an impassioned talk by Commissioner of Prohibition J. Sidney Peters last night in a meeting of temperance leaders at Broad Street Methodist Church.

For their alleged policy of playing up in a prejudicial manner news calculated to excite hostility against methods used by his department in carrying out the law, Dr. Peters paid particular attention to newspapers not friendly to prohibition, dwelling at length on the comment made by them on the shooting affray near Woodstock, in which Raymond C. Shackelford and Lawrence D. Hudson lost their lives when they came in contact with Inspector Hall and his deputies.

The comissioner declared that "brave Mr. Hall," was forced to resort to violence after one alleged bootlegger had caught hold on him and was attempting to beat his brains out with a bottle, while another was firing point blank into his face with a revolver.

"And while our enemies are sneering at the Woodstock affair," he continued, "we will tell them about the heroism and self sacrifice of Willam E. Payne and J. C. Shelhorse, who lost their lives as gloriously in defense of the set policy of their State and in the enforcement of laws on its statute books as any soldiers in battle. I will always take ocasion whenever I appear before my Christian friends to extol the virtues of these valiant officers."

Commissioner Peters declared that a supplementary force is absolutely indispensable to the rigid and impartial enforcement of the prohibition law, largely because of the alleged laxity of city and county officers in certain sections in doing the duty imposed upon them through tehir oath. He told of one county in which two distilleres had been captured every day for two years, not one of which was taken by the sheriff of the county.

His force he held up as self-sacrificing heroes, who performed their duty in the face of every known sort of opposition.

COAL. LUMBER AND BUILDING MATERIALS

W. A. SMOOT & CO. INC.

It is Worth Thinking Over

Building and improving is being done on a much larger scale than had been expected in practically all parts of the country by experienced men who have given this work their careful attention for years.

This means that a great many people are convinced that well planned building and improving is a wise and safe way to invest money today.

We have felt so sure of a good demand for LUMBER, MILLWORK AND BUILDING MATERIALS that we have large and well assorted stocks on hand and for the present will not be effected by the shortage of certain grades at the mills and by the increase in prices on these grades.

We are glad to be able to give our customers advantage of this condition and are splendidly equipped to handle all orders promptly and with care.

WAR GAS KILLS CATTLE

Death Still Lurks in Wake of Poison Fumes Used in Battle

Paris, June 4.—Poison gas used in the war is still having its deadly effect, though the fumes have long evaporated.

The authorities in Alsace have been mystified for some time as to the cause for hundreds of horses and other animals perishing suddenly while grazing in the Lutterbach region.

Specialists now have disclosed that the animals were poisoned by the grass over which poison gas had been widely spread during the war.

The gas, resting on plants, turned them poisonous, but the vitality of the plants was not affected.

KEPT HER AWAKE

The Terrible Pains in Back and Sides Cardui Gave Relief

Marksville, La.,—Mrs. Alice Johnson of this place writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straight en up and my pains were nearly all gone.

I shal lalways praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints. Cardui may women who once suffered in this way now praise Cardui for their present be just what you need. Thousands of good health. Give it a trial.

TORONTO STRIKE IS ENDED

Metals Trades Council Asks to Fight Own Battles onits Own Hook

Toronto, June 4.—The Metal Trades Council today called off the sympathetic strike here. In a statement they advised all other union members to return to work and leave the metal workers to fiht their own battle.

The action of the Metal Trades Council ends the so-called general strike that went into effect here on Friday, but leaves approximately 7,000 men—the metal workers themselves—still out.

It is believed the way will be cleared for arbitration.

In their statement the metal workers thanked members of other unions for their support.

MURDER ON HIGH SEAS

Captain of American Bark And Son on Trial Under Old U. S. Statute

New York, June 40.—Capt. Adolph Pederson, known as "Hell Fire" Pedersen among sailors, and his 18-year old son, second mate, Adolph Eric Pedersen, were released Monday from the prisoners' cage in Federal Court, where they were on trial charged with murder on the high seas.

The cage, a replica of a prisoners' dock in old English courts, was ordered built by Judge Hough.

The judge released the prisoners from the cage when Dudley Field Malone, objected that his clients could not see witnesses.

The prisoners were in charge of the American barkentine Panka. It is charged that a steaman, Axel Hansen, was kept in irons and denied proper food and beaten until he jumped overboard. Help was denied him.

The law under which they are being tried was copied from an old English act and placed on the American statutes over 100 years ago.

In the quaint phrases of the old law the indictment charges that the prisoners did, "with force and arms, not having the fear of God before their eyes, kill Hansen, a human being."

If guilty, the prisoners must be hanged, the law reads, unless the jury stipulates that the punishment be life imprisonment.

Deputy marshals said that if necessary, a scaffold might be built on the postoffice roof. An old scaffold in the basement might be repaired. This scacold was last used for Private Hicks, about seventy years ago.

TRIAL TO OPEN JUNE 23

Court Refuses to Continue Until Fall Case of Alleged Murderer.

Charlottesville, Va., June 4.—After two hours spent in a futile effort to round up their long list of witnesses, counsel for Edgar Morris, charged with killing Magistrate Bluford G. Sullivan in the courthouse at Standardsville, March 29, urged that the case be continued until the October term. Judge Fishburne said he considered the chanses as good now as in October and thereupon fixed June 23 as the date of the trial.

Morris who sat in the courtroom between two special deputies, seemed far from being a man of desperate character, or bloodthirsty tendency but rather a typical young countryman, well dressed and clean shaved.

Morris will claim that he was hounded by the dead magistrate, until he was hardly responsible for his action in killing him. He had been arrested a number of times at the instance of Sullivan, who always insisted on trying the cases against him, he says.

FIRE WRECKS CAFE

Harrisonburg, Va., June 4.—Fire Sunday night almost completely destroyed Friddle's restaurant and damaged the property in which it was located to the extent of $5,000. In addition to the almost complete ruination of restaurant fixtures, practically all supplies stored on an upper floor, including $300 worth of country hams, 500 pounds of coffee and numerous other articles were destroyed. The loss was partially covered by insurance. The conflagration was caused by a defective flue.

VANDERLIP RESIGNS

Head of National City Bank New York, Plans 'Useful Work' Later

New York, June 4.—Frank A. Vanderlip, for ten years president of the National City Bank, one of the country's greatest financial institutions resigned yesterday, according to his own statement, to take a vacation and to "do useful work."

"All I can say is that I have resigned," Mr. Vanderlip replied to questioners. "I am going to get acquainted with my children, and take a long vacation, and I am going to do useful things."

The retiring financier said he would spend a month or six weeks in a speaking tour, making addresses at Washington and several other cities after which he would take his children west into the mountains for "a good vacation."

Stimulate Retail Sales

ADVERTISE

U. S. Department of Labor

Never before has the American public had the money to spend which it has today.

The merchant or manufacturer who sits back and waits for this money to come to him without making any effort to get it will awaken when it is too late. He will then realize that his more aggressive competitor has been on the job and has taken advantage of the strongest sales weapon known to industry, namely, advertising.

Don't wait for things to come your way without doing anything to help them along.

Advertise—increase your advertising. use the newspapers to tell your story. Multiply the value of your sales talk a thousand fold and more. Develop that great potential market which is ready and willing—yes eager to buy the things you have to sell but does not know that you have them.

To stimulate business surely, quickly, and economically—Advertise now.

The versatile Dorothy runs a railroad in this picture. And she runs it on schedule.

If you're a Mason, you'll have to keep a watch on your wife, and prevent her from learning the secrets of that organization. That is the moral of "Once a Mason," the new Paramount comedy starring Mr. and Mrs. Sidney Drew which will be shown at the Richmond theatre with the above.

INGOMAR—"June Elvidge"

June Elvidge stars in the newest World-Picture, "The Social Pirate," which is scheduled for showing tonight at the Ingomar theatre. Man Carrying Whisky on Coal Car Fights With Officers.

Grafton, W. Va., June 4.—Beck Jennings, negro, was shot to death in battle with officers while he, with three companions, who, escaped, were riding into Grafton in a coal car Monday night.

One hundred pints and one quart of whisky, intended for bootlegging purposes, were captured. Jennings conducted a pressing establishment here.

ORDERED OUT OF IRELAND

British Expel Two U. S. Officers Who Spoke at Sinn Fein Function

London, June 4.—An American major and a lieutenant of the Quartermaster's Department, A. E. F., who were spending their leave in Ireland, were expelled from that country Sunday by order of the British government as a result of alleged secret partisanship with the Sinn Fein.

Summary expulsion of the officers has created a sensation at Gen Biddle's headquarters in London, where both reported Monday. They were summoned to the Judge Advocate's office today for a lengthy conference.

The two officers had been for several days in Ireland, often in the company of pronounced Sinn Feiners. Saturday night they attended a Sinn Fein function at the Dublin Mansion House, where President de Valera was making a speech dealing with the hopes Ireland still pinned on the American delegates at Paris, as well as on the American Congress.

The officers are alleged to have made strong pro-Sinn Fein remarks. These were overheard by British secret service agents, who immediately reported them to the British government. Official information was conveyed to the officers that their presence in Ireland was considered undesirable They caught the morning boat from Kingstown for Holyhead.

CONDITIONS AT WINNIPEG

Strike Nearng End; Police Promise to Keep Order

Winnipeg, June 4.—While oil of mediation was poured on the turbulent sea of industrial unrest in Winnipeg yesterday and efforts to forestall possible rioting were continued, several developments took place which may have an important gearing upon the Winnipeg situation.

The local police problem apparently was disposed of. The policemen promised to remain on duty and cooperate in maintaining law and order ;word was received from Toronto that settlement of the strike there was imminent; parading by strikers and strike sympathizers ended abruptly, when more than a thousand returned soldiers decided not to participate; an officially sanctioned parade of returned soldiers, who have not approved methods of the central strike committee tentatively was arranged for tomorrow, and the executives of railway brotherhoods, acting as strike mediators, obtained proposals of settlement from both the metal trades council and Winnipeg industrial employers.

While negotiations conducted by the brotherhood mediators have been short, it was understood last night that the principle of collective bargaining was outlined in both settlement proposals.

It is expected that the mediators' next move will be to submit a compromse plan, based upon the method of collective bargaining used by the brotherhoods and the railroads.
